Responsible, Ethical, Sustainable

At BWH Hotels Great Britain we are working hard alongside our independent hotels to minimise our collective environmental impact, reduce operational costs, appeal to eco-conscious guests, and contribute positively to local communities.

This is why we've partnered with Quality in Tourism for the REST Accreditation – Responsible Ethical Sustainable Tourism.

The REST scheme evaluates more than just environmental sustainability, it measures relationships with clients and hotel workforces, it examines Corporate Social Responsibility practices, HR directives, and supplier connections. It is an evidence based and evolving process for hotels to embrace and deliver on their promises to the environment, not simply a 'one-time, tick-box exercise'.
